

HI-IQ is exclusively endorsed by

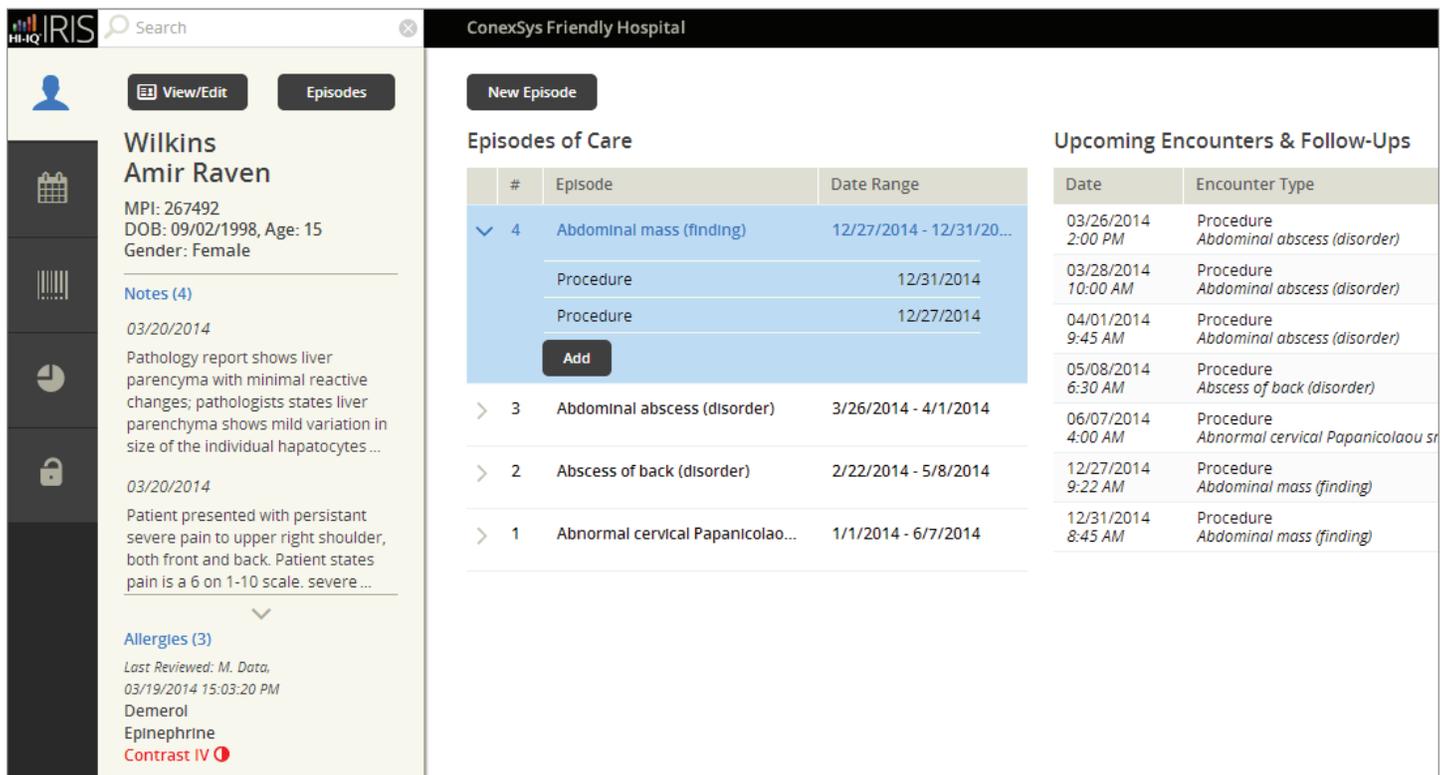

*Enhanced care through advanced technology*

SIR is not responsible for the performance of any products or services offered by ConexSys, including HI-IQ, or any guarantees, representations or warranties offered by ConexSys.

HI-IQ is the centerpiece tool for managing interventional radiology workflow. It enables IR departments to streamline patient scheduling and tracking and proactively manage both the quality assurance and inventory processes. With this information our customers demonstrate the value of IR.

## Evolution

HI-IQ has evolved into a more modern, integrated, and user-friendly software platform with the same core competencies our customers have relied on for over 20 years, as well as a far more intuitive, elegant and usable interface. Existing customers will enjoy the benefits of this evolution as part of their subscription. When the time is right, the HI-IQ team will work with each customer to facilitate migration to the new platform.

## Benefits

Enterprise friendly and scalable to provide improved support for multi-site customers

Advanced interoperability features to facilitate information exchange between systems ensuring clinicians have the information they need when they need it

Accessible via the web with a light local footprint

Introduction of a clean and modern user interface making the platform more intuitive and easier to use

Information access is easy and straightforward, making your time using HI-IQ more meaningful

User account creation and enrollment managed by you

Better able to respond to the changes in healthcare due to incorporation of standards such as SNOMED, ICD-10 and SIR Societal Data

## Making the Switch

Subscription customers will be automatically placed on a transition path to allow them to take advantage of the benefits of the new platform as soon as possible, while retaining all of their existing data. Ample training and documentation will be provided in advance of your conversion, and a dedicated HI-IQ project manager will be assigned to guide you through the transition.

## Get Involved

Focus group and Beta site opportunities are available for those customers interested in gaining advanced access to HI-IQ IRIS. Contact your Account Manager today for details.
